WorkCentre® 7328 / 7335 / 7345 / 7346

Xerox raises the bar on office productivity. Now it's easier than ever to experience the benefits of a high-performance black-and-white multifunction plus all the competitive advantages of cost-effective color when you need it.

Unleash your office performance

Fast, powerful and engineered to easily perform multiple tasks for workgroups of any size, the Xerox WorkCentre 7300 series boosts productivity and delivers spectacular results.

- **Print and copy in black-and-white at up to 45 ppm and up to 40 ppm in color.** In fact, WorkCentre devices boast the fastest print productivity in the industry when printing real-world office applications, thanks to advanced controller design and throughput technology.*

- **Concurrently scan, print, copy, fax and route files** to their next destination to maximize productivity. The Xerox multitasking network controller handles multiple office tasks with speed and efficiency.

- **A scan speed of 45 color or 50 black-and-white scans per minute** lets you quickly convert your paper documents into digital files for annotating, editing, sharing, archiving and reprinting.

Advanced ease of use

Intuitive user interfaces make quick work out of complex tasks.

- **At over 8 inches, the touch screen** provides plenty of room for navigation screens and thumbnail previews, as well as customized screens using Xerox Extensible Interface Platform.

- **With a Xerox workflow** that's consistent across previous-generation and current products, users will quickly embrace the user interfaces at the device, on the print drivers and over the web, for a drastically lowered learning curve and out-of-the-box productivity.

- **Xerox SMart Kit™ technology** constantly monitors critical components of your WorkCentre device to predict and prevent downtime.

- **With walk-up convenience,** users can print directly from a media card or USB storage device (optional).

More than 90 percent of the WorkCentre device's everyday tasks are on the top level of the first screen of both the print driver and the control panel, providing fast, easy access to basic features.

WorkCentre®

WorkCentre 7300 Series with High Capacity Tandem Tray Option

* According to print productivity testing conducted by Buyers Laboratory Inc.

Paper input

1
75-sheet Duplex Automatic Document Feeder quickly processes single- or double-sided originals

2
100-sheet Bypass Tray (adjustable to 12 x 18 in.)

3
520-sheet tray (adjustable to 11 x 17 in.)

4
Three Tray Option provides three additional 11 x 17 in. trays (not shown)

5
High Capacity Tandem Tray Option adds one 520-sheet 11 x 17 in. tray, one 800-sheet 8.5 x 11 in. tray and one 1,200-sheet 8.5 x 11 in. tray

Finishing options

6
Office Finisher adds 50-sheet multiposition stapling

7
Advanced Office Finisher adds 50-sheet multiposition stapling and hole punch

8
Professional Finisher adds 50-sheet multiposition stapling, hole punch, V-Fold and saddle-stitch booklet making

The color you want,
the control you need

Can you afford not to use color? Strategic use of color makes it clear you mean business. The WorkCentre 7300 series provides the tools to let you choose when, where and how much color your business needs

Responsible color

Give your entire business the competitive edge of color on demand with built-in controls to regulate and track usage.

- **Auditron** is a device-based feature that allows administrators to set black-and-white and color limits for copy, fax and scan functions.

- **Xerox Standard Accounting** software enhances the Auditron capability, with easy device enabling, remote management via the web, and helpful data sourcing that makes device deployment decisions easier in the future.

- **Network Accounting** integrates with industry-leading solutions to manage a fleet of output devices. It provides up-to-date information on how your WorkCentre device is used by account and user, including time and date of the activity.

- **Color authorization** via MS Active Directory™ makes it easy to integrate the WorkCentre device with existing IT systems. Administrators can provide unlimited black-and-white printing and copying while limiting color to select users for greater cost control.

Outstanding Xerox image quality

Advanced technologies ensure your business documents look their best.

- **1200 x 1200 dpi** print resolution (up to 12 x 18 in. / SRA3) produces the image quality you need to get the results you expect.

- **Emulsion Aggregate High Grade (EA-HG) toner** — with particles engineered to have uniform size and shape — gives your work improved image quality and increased toner yield.

- **Belt Nip Fusing** improves registration and delivers consistent image transfer.

- **Trickle Charge Development** feeds a mixture of toner and developer at the same time to ensure exceptional image quality from the first print to the last.

Security at all points

Xerox is committed to helping you meet your security needs. Our system, software and solutions are designed with features that protect your critical information at all points of vulnerability.

Document

- Password-protected PDF
- Secure watermark
- Secure print
- Digitally signed documents
- Secure fax
- Encrypted PDF (128-bit RC4 or 128-bit AES)

Device

- Secure access
- Audit log
- Device access password protection
- Hide job and user name display
- Analog fax and network isolation

Hard drive

- Image overwrite
- Encrypted disk drive

Network

- Digitally signed documents
- Network user authentication
- IEEE 802.1x protocol
- IPv6 network routing protocol
- IPSec
- SNMP v 3.0
- HTTPS
- Encrypted scan to email

Easy device management

The WorkCentre 7300 series comes with the tools IT managers need for fast deployment and easy support.

- CentreWare® IS Embedded Web Server automates installation, troubleshooting, cloning and upgrading, providing virtually effortless device management.

- CentreWare Web software manages an entire enterprise-wide print environment — regardless of manufacturer mix — and helps ensure all devices run smoothly and reliably.

- Smart eSolutions simplifies ownership with hands-free, hassle-free secure administration of Xerox devices.

Color workflows, optimized

Add an EFI Fiery System 8e® Network Controller to the WorkCentre 7300 series and get a wealth of easy-to-use color management controls, powerful productivity features, and superior workflow tools. It's the ideal combination to take your in-house graphic arts capabilities to the next level.

The EFI Fiery Network Controller adds these features:

- True 600 x 600 x 8 dpi print resolution for outstanding detail and clarity.

- PANTONE® Color Calibrated certification ensures you get precise colors, every time.

- Fiery ColorWise® offers standard-setting color tools and user flexibility.

- A 2.8 GHz processor and 512 MB memory deliver the power to handle even the most complex print jobs.

- EFI Command WorkStation makes it easy to program, monitor and manage your office workflows.

- The Fiery RIP-and-Print utility streamlines the print-job processing in office environments.

Powerful scanning, simplified

Cutting-edge solutions help you seamlessly create and distribute business-critical color documents to increase productivity and reduce costs.

- **Store on the device**

  Scan to Mailbox
  Stores scanned documents and documents sent from a PC to the device hard drive for easy retrieval or reprinting

  View Stored Files
  View thumbnail preview of documents stored in the mailbox — both at the device front panel (optional) and from your desktop

- **Routing made easy**

  Scan to Email
  Sends scans to email recipients directly from the front panel

  Network Scanning
  Uses templates to send scans to predefined locations

  Job Flow Sheets
  Enables simple workflows on the device for documents sent to or stored in the mailbox

  Scan to PC
  Scans a file to an existing shared folder on a PC

  Scan to Home
  Scans files to preassigned "home" destinations for fast routing

- **Repurposing documents**

  Scan to PC Desktop®
  Provides helpful tools for editing and document manipulation

- **Deliver files faster**

  Advanced Compression Technology
  Compresses file size for fast delivery and reduced network load

- **Convert Documents**

  Multiple Formats
  Scans can be saved in PDF, TIFF, mTIFF, JPEG or XPS® format

  Scan to Searchable PDF
  Converts hard-copy documents to text-searchable PDFs

Imagine the possibilities...
if you could make your multifunction device work the way you work

The world is changing. There's constant pressure to do more with fewer resources. You know your business better than anyone. Now your WorkCentre device can adapt to fit the way you work, not the other way around.

Your Xerox WorkCentre multifunction device is now more productive, and your work just got easier. Menus and languages specific to your business or workgroup, such as "fax to accounts payable" or "submit to claims department," can appear on the touch screen. Xerox Extensible Interface Platform, or EIP, is at the heart of this. It enables a variety of applications that extend the power of your WorkCentre by allowing you to securely find, save, print and share critical information with just a few easy steps right on its touch screen.

The possibilities are endless.

Access and print information without the use of a computer

Need your company's latest price list or a brochure on this week's hottest-selling product? Simply use the touch screen on your WorkCentre to browse an online repository such as Xerox DocuShare®, Microsoft SharePoint® or Windows folders, select the document, and print it. This is ideal for industries such as Retail or locations like a Health Care facility where PCs are not required for each employee. It also eliminates filing cabinets filled with material that quickly becomes outdated.

Simply scan information and store it exactly where you want it

Transform hard copy forms into archived digital information with just a few simple steps. A new patient fills out a medical history form, the receptionist securely scans the form, previews a thumbnail image on the touch screen, and then sends the form to a folder named Patient Records. EIP-enabled applications make it possible.

Control costs with user-friendly accounting

With Xerox accounting solutions you can set usage limits by individual and by function. Track device usage through a printed report, file download, or integration with a partner accounting solution.

Convenient and secure access with a simple swipe of your ID card

Xerox makes it easy for you to ensure that only authorized users access your WorkCentre devices by requiring passwords or access cards. Once authenticated, you can access EIP-enabled applications that are personalized to meet your needs.

Simplify complex fax distributions

Send and receive faxes even when a fax board has not been installed in the device. Faxes can be scanned in at the device or submitted from a user's desktop using a fax print driver. Faxes can be tracked and audited to ensure regulatory compliance.

Advanced partner solutions created with your business in mind

Xerox EIP enables an array of Business Partner solutions that extend the value of your WorkCentre multifunction device with advanced accounting, faxing and scanning capabilities.
